# ELEX<sup>TM</sup>

## CONVECTIVE PANEL HEATER

ELEX euro control panel with 5-30°C electronic thermostat and 24-hour / 7-day programmable electronic timer with digital clock face screen.

## Stylish, durable and energy saving too!

### ELEX euro convective panel heater

Using traditional European design and functionality, the stylish ELEX euro series by THERMOFILM AUSTRALIA will blend elegantly into any interior. Supplied with wall mounting brackets and a castor wheel set for optional portability, the ELEX euro features clear and simple touchpad controls, a 5-30°C electronic thermostat, and programmable 24-hour / 7-day digital timer. Product reliability is guaranteed with a no-fuss 7-year replacement warranty.

### Cost effective heating

The unique X shaped heating element used within the ELEX euro is engineered with maximum surface area to provide efficient heat exchange with minimal operating cost. Save money and energy with the 24-hour / 7-day programmable digital timer, which can reduce your operating costs by ensuring your ELEX euro is ON when you need it and OFF when you don't. Creating a customised programme to suit your lifestyle is easy with the 24-hour digital clock face, clear and simple touchpad controls and user friendly instruction manual.

### Natural, efficient, and healthy heat

The combination of natural convective currents and radiant heat quickly warms you and the space around you. The natural convective currents allow for minimal circulation of dust, pollens and germs making the ELEX euro the ideal choice for asthma, allergy and hay fever sufferers.

### Assured peace of mind

The ELEX euro range of convective panel heaters complies with both Australian and New Zealand electrical standards. Safety features include an independent on/off switch and power on button; in-built auto reset thermal cut-out, child safety lock function and rounded corners. With solid metal casing and no moving parts, you will enjoy trouble free operation, guaranteed.

### THERMOFILM AUSTRALIA

THERMOFILM AUSTRALIA is an Australian owned company specialising in innovative and energy efficient heating products for people, plants and pets. Please visit [www.thermofilm.com.au](http://www.thermofilm.com.au) for more information.
